Non-GAAP Financial Measures. In this press release, the Company's financial results are presented both in accordance with U.S. generally accepted accounting principles (“GAAP”) and using certain non-GAAP financial measures, including Adjusted EBITDA. This non-GAAP financial measure is included to supplement the Company’s financial information presented in accordance with GAAP and because the Company uses such measure to monitor and evaluate the performance of its business and believes the presentation of this measure enhances investors’ ability to analyze trends in the Company’s business and evaluate the Company’s performance relative to other companies in its industry.

For more information regarding the Company’s use of non-GAAP financial measures, including the definition of Adjusted EBITDA, and a reconciliation of such financial measures to net earnings, a GAAP measure, see “Non-GAAP Financial Measures” on page 7 of this press release.

NEIMAN MARCUS GROUP LTD LLC NON-GAAP FINANCIAL MEASURES (UNAUDITED)

To supplement the Company's financial information presented in accordance with GAAP, it uses Adjusted EBITDA to monitor and evaluate the performance of its business and believes the presentation of this measure enhances investors' ability to analyze trends in its business and evaluate its performance relative to other companies in its industry. The Company defines Adjusted EBITDA as earnings before interest, taxes, depreciation and amortization, further adjusted to eliminate the effects of items management does not believe are representative of the Company's ongoing performance. This financial metric is not a presentation made in accordance with GAAP.

Adjusted EBITDA should not be considered as an alternative to operating earnings or net earnings as a measure of operating performance. In addition, Adjusted EBITDA is not presented as and should not be considered as an alternative to cash flows as a measure of liquidity. Adjusted EBITDA has important limitations as an analytical tool and should not be considered in isolation, or as a substitute for analysis of the Company's results as reported under GAAP.

These limitations include the fact that Adjusted EBITDA: (i) excludes certain tax payments that may represent a reduction in cash available to the Company; (ii) excludes certain adjustments for purchase accounting; (iii) does not reflect changes in, or cash requirements for, the Company's working capital needs, capital expenditures or contractual commitments; (iv) does not reflect the Company's significant interest expense; and (v) does not reflect the cash requirements necessary to service interest or principal payments on the Company's debt. Although depreciation and amortization are non-cash charges, the assets being depreciated and amortized will often have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements. In addition, other companies in the Company's industry may calculate Adjusted EBITDA differently than it does, limiting its usefulness as a comparative measure.

The following table reconciles net earnings as reflected in the Company's consolidated statements of earnings prepared in accordance with GAAP to Adjusted EBITDA (figures may not sum due to rounding):
